

Please see our web page for a map to all our locations and many other pictures:

www.tulsagardenrailroadclub.org

(1) JOE & ALICE SALAMON -- PINE MOUNTAIN RAILROAD

Multiple trains operating throughout the yard on 400 feet of track. Two small ponds. Waterfall. Mountain tunnel. Trolley tracks. Zoo. Numerous buildings, including residential areas, church, and log cabin. Many small trees and plants. Established in 1998.

(2) BILL & BARBARA BLACK -- B&B RAILROAD

This layout includes two towns (Billville and Barbaraville) and two loops, a pond, numerous buildings, including a Southwestern Bell section, a residential area, and a circus with tent, ferris wheel, merry-go-round and animals. An industrial section is under construction. Many plants, trees, and bushes. Two rolling stock will be operating throughout the railroad. Established in 2006.

(3) BOB & SHEILA BUTTRAM -- S&B RAILROAD

Trains operating on over 350 feet of track. Large fish pond and two waterfalls. Raise 24 inches of the ground. Running DC power on all brass track. Flowers and trees everywhere. Established in 2006.

(4) VERN, ROBERTA, & VIC GUESS -- SHOE STRING AND PACIFIC

This layout shows all the stages involved in building a garden railroad both inside and out -- areas that have been completed, areas under construction, and areas that haven't yet been touched! Running both standard gauge diesels and narrow gauge locomotives. Established in 2009.

(5) DENNIS & LISA SULLIVAN -- COWETA CENTRAL

Trains operating on all stainless steel track; featuring an over and under figure eight, oval with a trolley running around the town, and main line around the perimeter. Nicely landscaped, raised 30 inch off the ground. Established in 2009.

(6) VERNON, KANNA, KAYCI, & KAYDN GUESS -- THE F&G RAILROAD

Another layout that shows the stages involved in building a garden railroad -- areas still being worked on. Modeled after a 1930's narrow gauge short line railroad but now running modern diesels (this year you will still see the touch of narrow gauge), you will see all types of geared locomotives, rail trucks, modern diesels and siderod locomotives. Now running DCC and battery power. Established in 2006.

(7) BOB & JONNA GARDINE -- B&J RAILROAD

Consists of a 40-ft x 60-ft layout with over 600 feet of track. Both track power and battery power are used. The layout features an animated sawmill, gristmill, scratch-built barn, farm house, railroad station, an Indian village, zoo, sidings for rolling stock, a five-bay round house and a large animated circus area. Running between the town and the train station is a multi-stop trolley. There are many scratch-built features on this railroad. Sound units are used throughout the layout. Established in 2002.

Free entrance to all locations with the donation of 4 canned good items. Just visiting a few?

Free entrance with donation of canned good to each location you visit. With your donation receive a coupon for 10% off your next plant purchase at *Colebrook Nursery*.
